

SLIP-IT

Professional Grade Lubricant

Because Friction is bad for business

Professionals in almost every industry—from elevators and trucks to overhead doors—have been choosing SLIP-IT as their lubricant of choice for over 80 years. Independent testing at RPI, a top-rated U.S. engineering school, proved SLIP-IT superior in load-carrying wear reduction. NSF(H1) approved for incidental food contact, SLIP-IT is safe for use in and around food processing areas. Available as a compound, spray, or liquid, SLIP-IT is odorless, non-toxic, and easy to apply.
