

High Test Grade 40 Chain

Fehr Bros. Industries, Inc.

WWW.FEHR.COM

800-431-3095

Made to NACM specifications

High Test Grade 40 offers higher strength and greater resistance to wear, creating working load limits that exceed those of general utility steel chain. High Test is primarily used in agriculture and construction where greater working loads are experienced. Available in hot galvanized or self-colored finishes.

High Test Grade 40 Chain Full and Half Drums

Fehr Part#	Size (in)	Working Load Limit (lbs)	Ft/Full Drum	Ft/Half Drum	Wt (lbs)/Ft
14_250	1/4"	2,600	800	400	0.66
